# Some blocks with code and formulas

## A block with some code

Here is some python code:

```
1 import s as ok
2 def creat(a,b):
3     jumb(a+2,b-7)
4     write("ok")
5     return
```

e  $a$ -o  $b$ -kr  $g$ -  $f$ -o zoierj zoije  $\sum_i^n pf(k, z)$

Let  $f$  be a function with three variables  $X, Y, Z$  such that  $f(X) \mapsto 7b + \frac{Y}{Z}$

## Formulas

$\sum_i^n 3i$  is a series with no  $\xi$ -related phases

# Title
