Outline

Some blocks with code and formulas

A block with some code

Here is some python code:

```python
import s as ok
def creat(a,b):
    jumb(a+2,b-7)
    write("ok")
    return
```

e a-o $bderr$-kr g- f-o zoierj zoije $\sum_i^n pf(k,z)$

Let f be a function w$b * 2.e\frac{o}{c \times o} - 23.0$-ith three variables X, Y, Z such that $f(X) \mapsto 7b + \frac{Y}{Z*2}$

Formulas

$\sum\limits_i^n 3i$ is a series with no ξ-related phases

$$op = 3.2po\imath r\imath \left(\right) \mathbb{R}e \tag{1}$$

Block equations

content

$$e \tag{2}$$

$$r \tag{3}$$

rt r

$$e \tag{4}$$

$$zeiuhruz \tag{5}$$

Title

content

$$\sum_{i}^{n} \xi \times \pi \tag{6}$$
